

Here is what we're doing in response to COVID-19

- Washing hands frequently
- Sterilizing boats regularly
- Installing hand sanitizing stations
- Adhering to physical distancing rules
- Assigning one student per boat for the entire week (exceptions for close or family groupings)
- We stay committed to following all provincial guidelines as they're updated

Here is what we expect from our parents, guardians and students

- Educated about physical distancing
- Students should be able to enter and exit a boat by themselves
- Students should be able to use the restroom without assistance
- Parents and guardians should check students daily before attending for COVID-19 symptoms
- Should a student display symptoms of COVID-19 parents and guardians will be expected to pick up students
